

Budget Monitor: your practical walkthrough

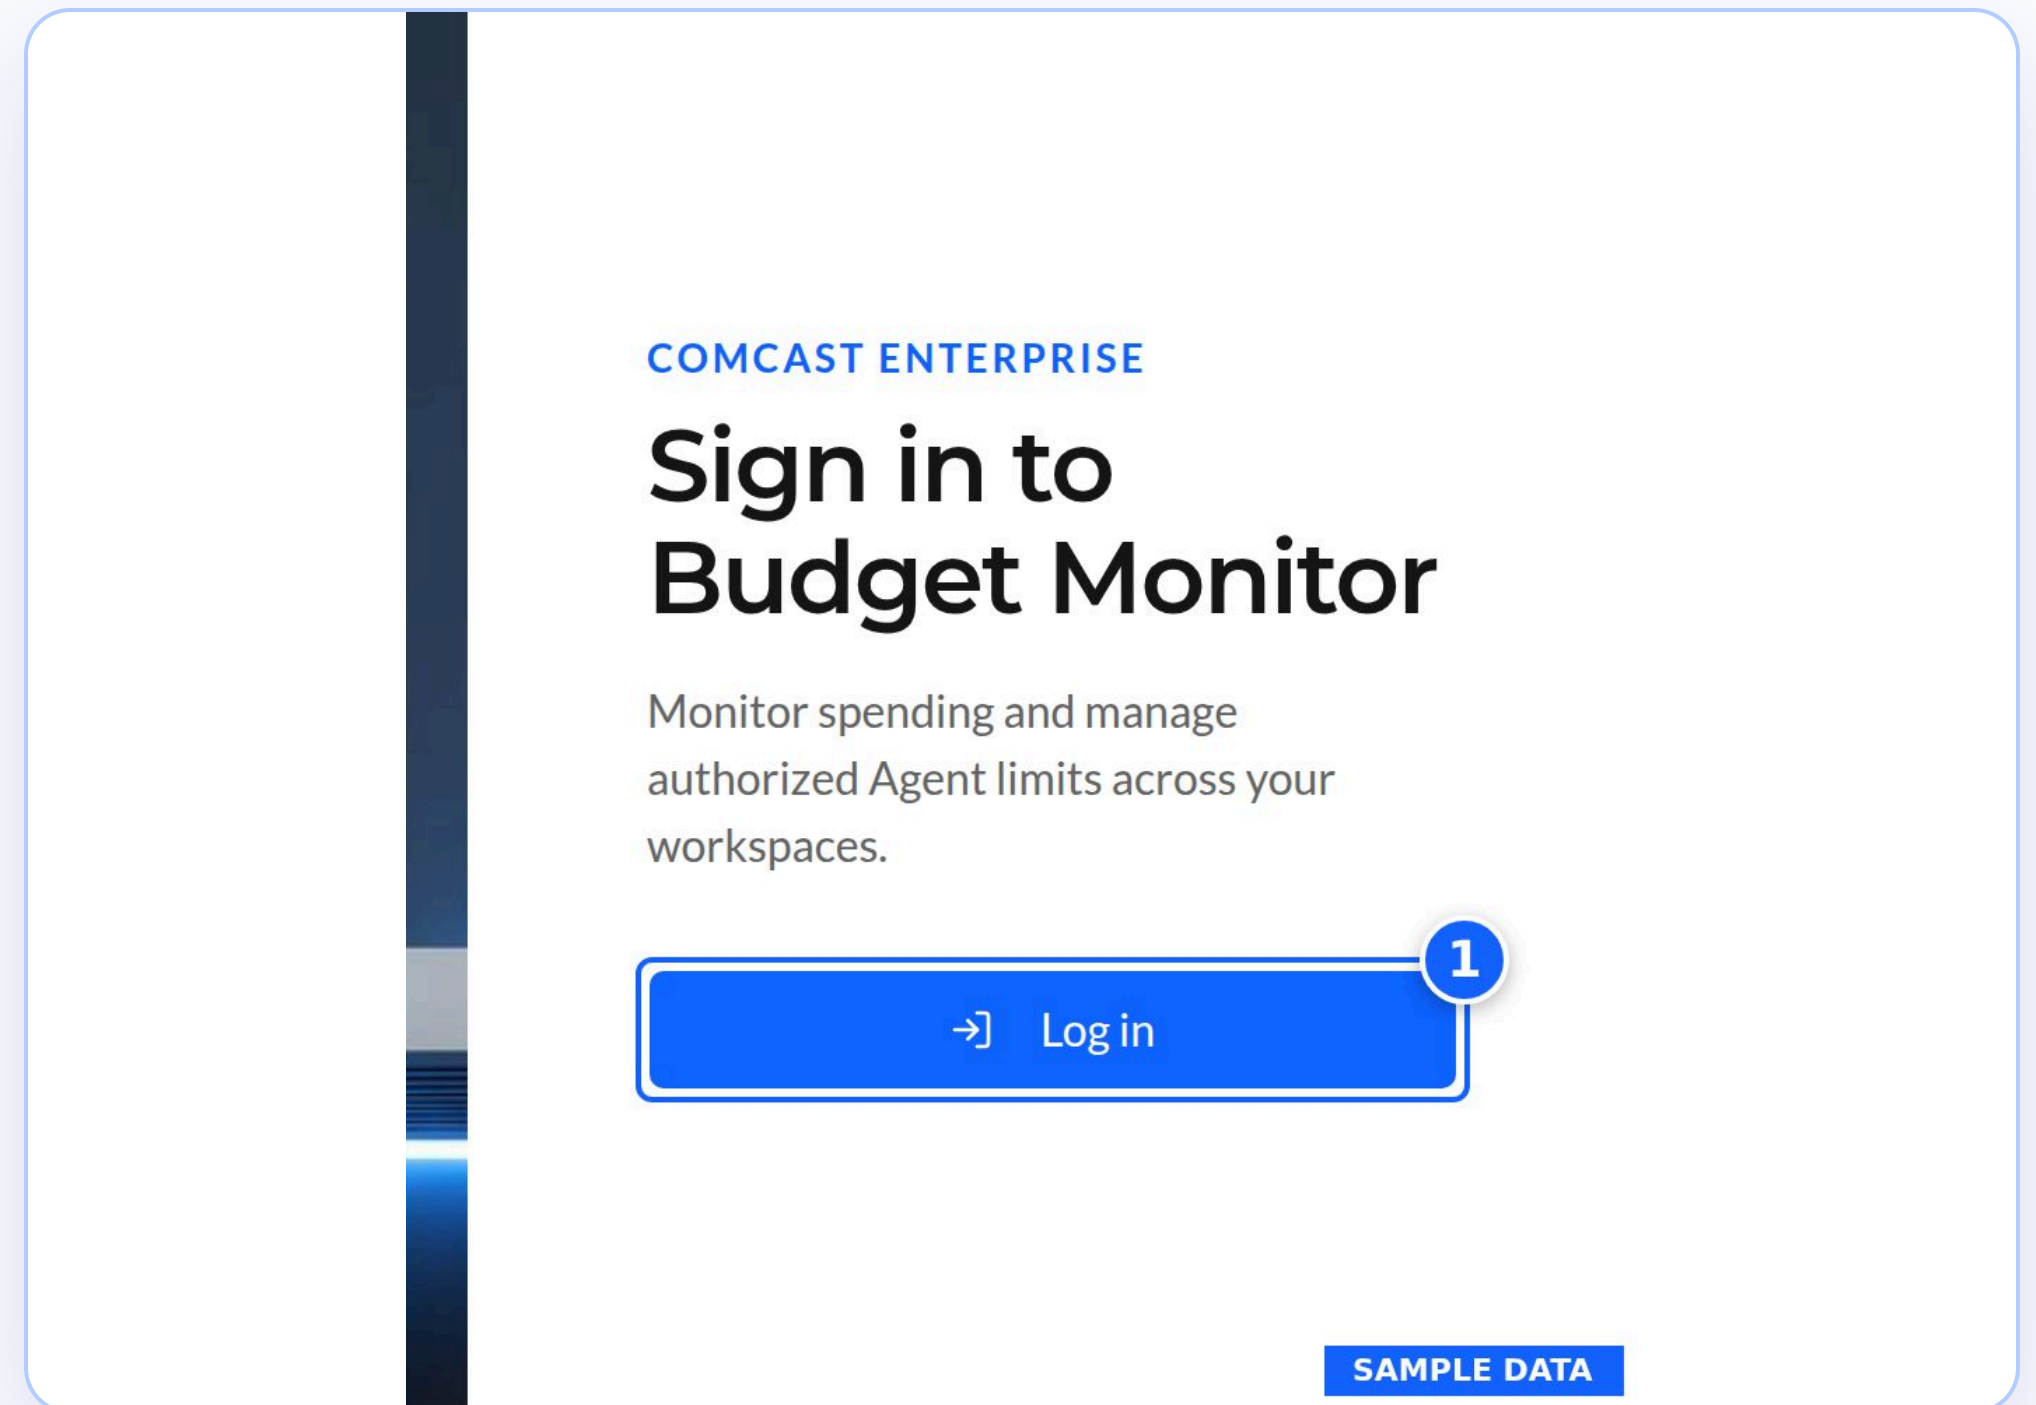

- For Comcast members and team administrators
- Find your spending and current projects
- Understand funding, monthly Agent limits, and the actions your role permits

1 Open walkthrough (PDF) · 2 Help navigation
Sample data

Sign in and understand your access

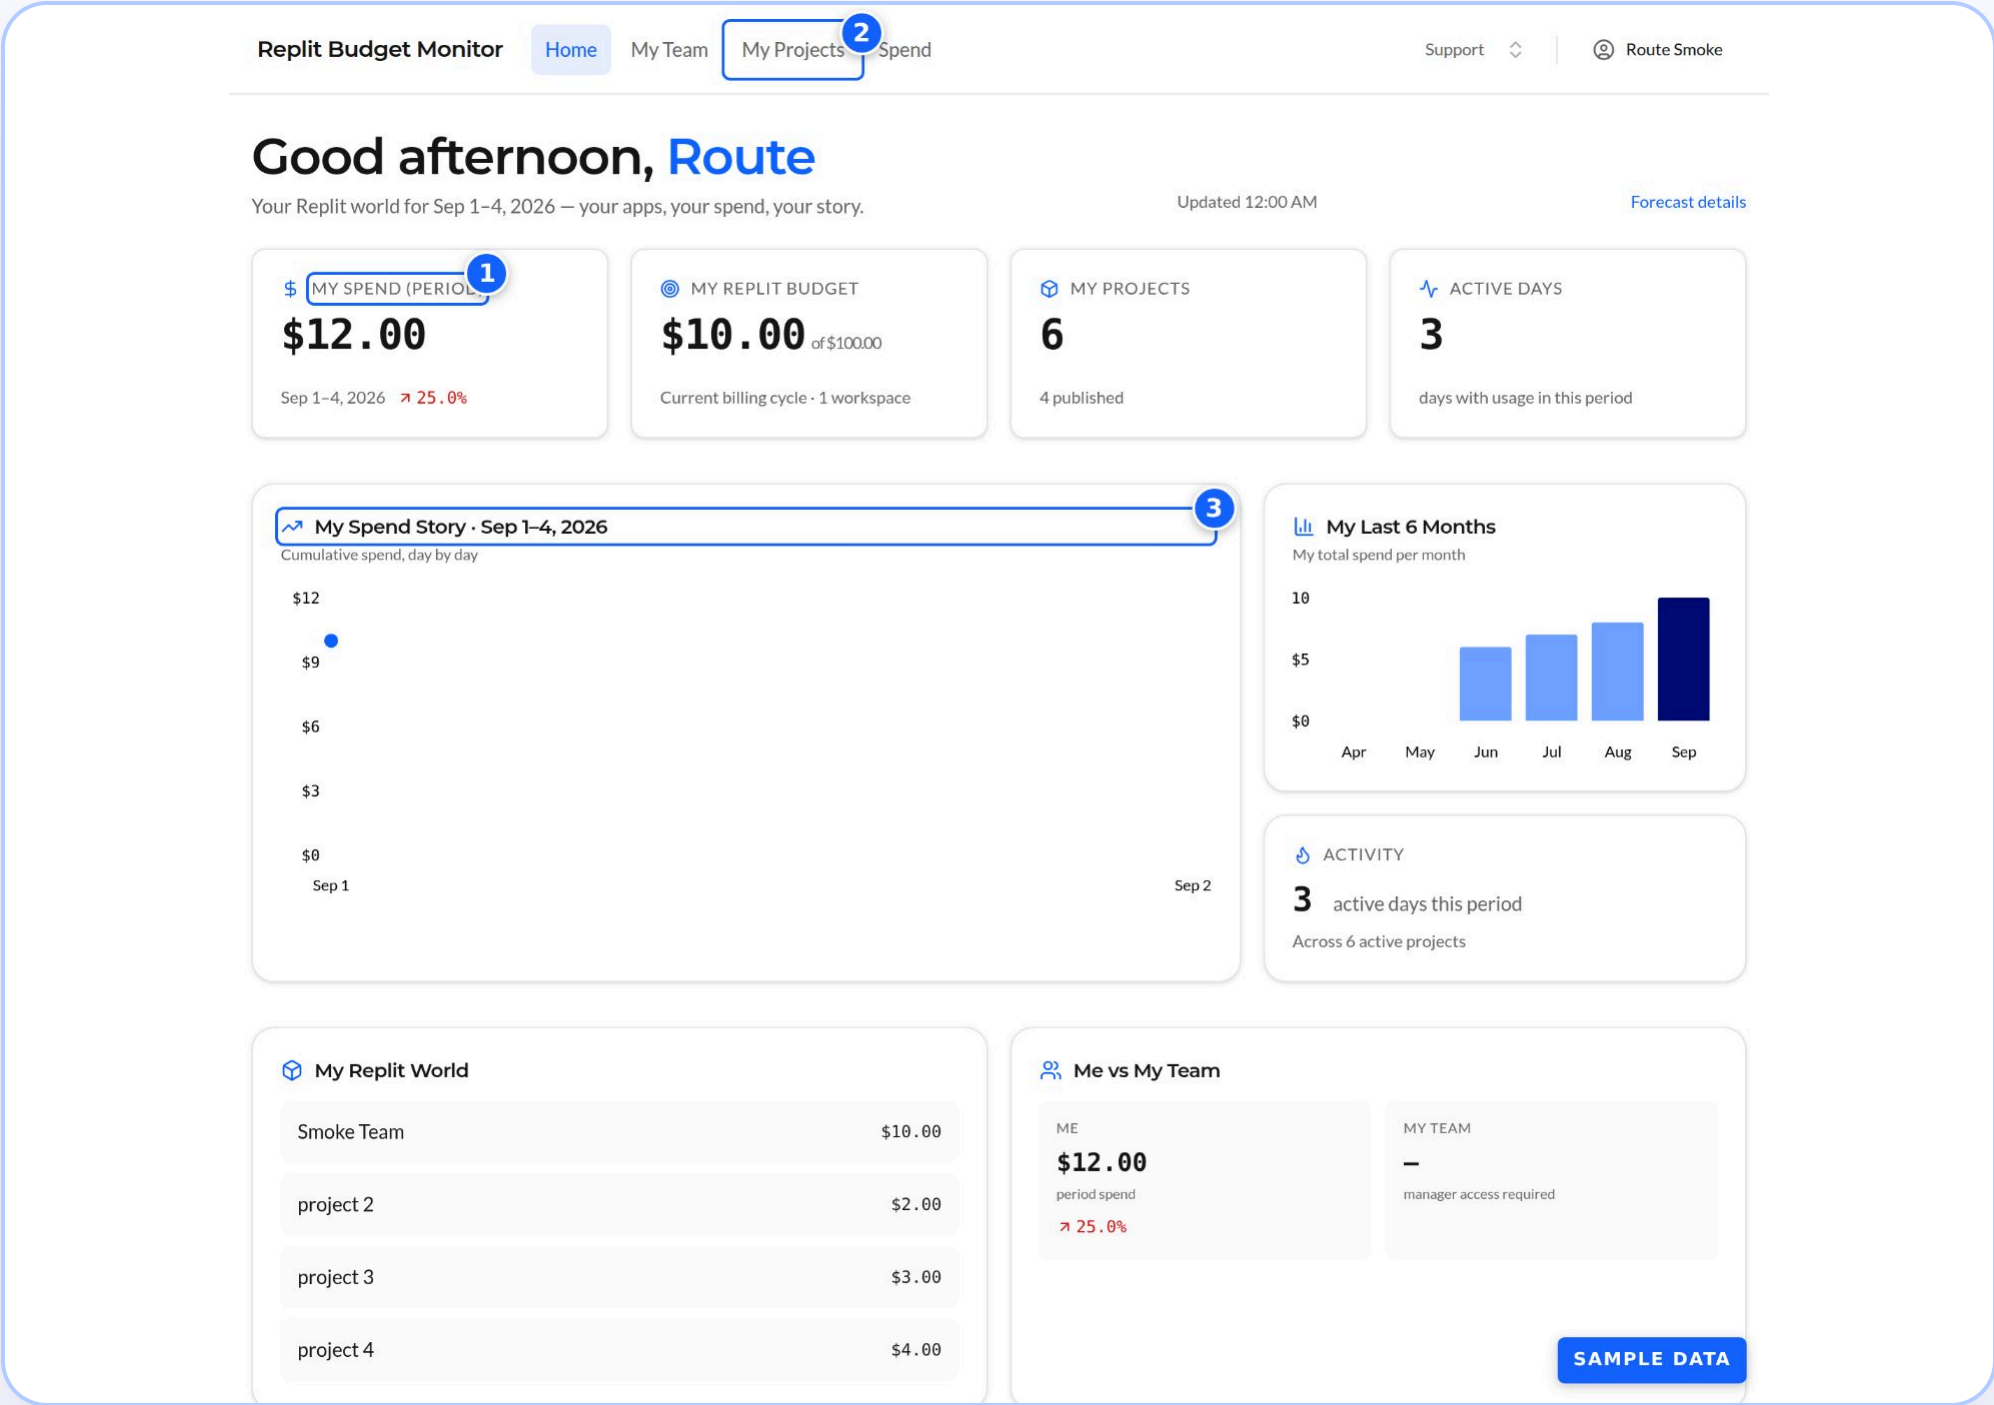

- Choose Log in; embedded previews open sign-in in a new tab
- Members can review their own spending
- Administrators see additional information only within their authorized scope
- Management tools appear only when your permissions allow them

1 Log in
Sample data

Start with Home

- Review your personal spending summary and trends
- Use My Projects to see your current project inventory
- Follow linked details to investigate an amount
- Home is not automatically an account-wide spending view

1 Personal spending • 2 My Projects • 3 Spending trend
Sample data

Choose the right reporting period

- Full period is the default reporting range
- Start and end dates are inclusive
- The contract runs from May 20, 2026 to May 20, 2027
- Reporting dates do not change the billing cycle or monthly Agent limit
- A forecast is an estimate, not additional recorded spending

Sample data

Find your projects—including those without spend

- Open My Projects from the navigation
- Search, sort, and page through your current self-owned projects
- Published describes current deployment status
- Projects without spending still belong in the inventory
- Reporting dates change spending amounts, not catalog membership

Investigate spending without double-counting

- Open Spend and choose an available detail view
- Narrow the authorized scope with search and filters
- Open a group or member to investigate supporting detail
- Project-attributed amounts explain activity; do not add them to workspace or member totals

SAMPLE DATA

1 Detail view · 2 Scope and filters · 3 Group detail
Sample data

Team admins: review your assigned scope

- Open My Team to review the people and groups available to you
- Investigate changes before changing funding or limits
- Check the selected scope and dates when comparing amounts
- A shared funding team does not grant access to otherwise restricted spending

1 Scoped people · 2 Assigned team scope
Sample data

Funding and Agent limits are different

- Budget allocations are planning funding used for monitoring
- Monthly Agent limits are platform controls that may block paid Agent usage
- Changing a planning allocation does not automatically change an Agent limit
- Remaining monthly limit uses the current billing cycle, not a short report range

The screenshot displays the 'Limits' section of the Replit Budget Monitor. At the top, a navigation bar includes links like Home, My Team, My Projects, Org Insights, Spend, Custom Reports, Support, and Management. The main heading is 'Limits', with a subtext: 'Individual monthly Agent limits · reset each billing cycle · hard-block Agent usage when reached.' Below this, a 'Workspace' dropdown is set to 'Smoke Workspace'. A highlighted box labeled '1' contains the text 'Current billing cycle: Sep 1 – Oct 1, 2026'. To its right, it says 'Usage observed 9/4/2026, 12:00:00 AM.' and 'Each amount is an individual monthly Agent limit, not a shared group cap.' A section titled 'Advanced defaults and baseline policies' shows '25 eligible', '1 explicit', and '1 inherited' members. Below this are tabs for 'Members' and 'Groups', a search bar, and a 'Filters (1)' button. A 'Select page' link is also present. The main content area shows four member cards. The first card, 'Alex Explicit' (labeled '2'), shows a 'Monthly Agent limit' of '\$75.00' with a 'Limit state' of 'Explicit'. It also shows 'Current-cycle Agent usage' as '1.3% used' with a bar chart. The second card, 'Blair Inherited', shows a 'Monthly Agent limit' of '\$50.00' with a 'Limit state' of 'Inherited' and '4.0% used'. The third card, 'Limit Member 103', shows 'No limit' with a 'Limit state' of 'None'. The fourth card, 'Limit Member 104', also shows 'No limit' with a 'Limit state' of 'None'. A 'SAMPLE DATA' button is at the bottom right.

1 Current billing cycle · 2 Monthly limit and remaining
Sample data

Change Agent limits safely—when authorized

- Open Management → Limits
- Select eligible members in an authorized workspace and enter the amount
- Review the targets before confirming the change
- Check which results are verified, pending, failed, or unknown
- An unconfirmed outcome is not a successful limit change

PROPOSED / MEMBER / CYC

\$60.00

3

Individual Agent limits for 24 members in Smoke Workspace.

Current cycle: 9/1/2026 – 10/1/2026. Review prepared 9/4/2026, 12:00:00 AM. Operation 00000000.

Replaces each selected member's explicit limit in this workspace. Shared group caps, opening funding, monthly additions and ongoing policies are unchanged.

Review only — no limits have been changed.

MEMBER	OBSERVED EXPLICIT LIMIT AT REVIEW		NEW LIMIT	STATUS
Alex Explicit limit-101@example.test	\$75.00 Current effective: \$75.00 (explicit)	→	\$60.00	Not applied
Blair Inherited limit-102@example.test	\$50.00 Current effective: \$50.00 (inherited)	→	\$60.00	Not applied
Limit Member 103 limit-103@example.test	No explicit limit observed Current effective: No limit	→	\$60.00	Not applied
Limit Member 104 limit-104@example.test	No explicit limit observed Current effective: No limit	→	\$60.00	Not applied
Limit Member 105 limit-105@example.test	No explicit limit observed Current effective: No limit	→	\$60.00	Not applied
Limit Member 106 limit-106@example.test	No explicit limit observed Current effective: No	→	\$60.00	Not applied

Confirmation queues real platform writes. A limit at or below usage may block Agent immediately.

Sample data

Manage planning funding—when authorized

- Open Management → Budget allocations
- Review opening funding and dated monthly additions separately
- Review and confirm an opening-funding change or monthly addition
- Approved adjustments remain additive
- These actions manage local planning funding, not platform limits

Replit Budget Monitor

HomeMy TeamMy ProjectsOrg InsightsSpendCustom ReportsSupportManagementRoute Smoke

MANAGEMENT

New monthly addition

Budget allocations

Manage local planning funding. Undated opening funding, dated monthly additions, and carried-forward additions remain separate from platform limits.
